Experience

Wipro Technologies | Associate Consultant   June 2019 - Present

- Worked on more than 15 dashboards.
- Implemented JWT authentication in the dashboards.
- Worked with the UX/UI team to convert requirements into design leads.
- Implemented and built several functional components on react.
- Implemented Redux toolkit for state management.
- Made responsive designs with the use of CSS and tailwind.css.
- Used NPM packages for quick development.
- Excessive use of JIRA, GIT.
- Used other features of React framework like hooks, states, functional components, JSX and virtual DOM.
- Was responsible for handling frontend designs and guiding trainees.

Projects

- [stickyNotes](#): This is a notes App, where you can keep your activities noted and save, delete and update as and when required.
- [Gola](#): It is a bubble game project where you will have to hit the target number and score within 60 seconds.
- [myTodo](#): This is a todo list made with complete vanilla Javascript.
